

Koeuk KOS

Web Developer

About Me

I'm a web developer based in Phnom Penh with over a year of experience building web applications using Laravel and Vue.js. Right now, I'm studying Software Engineering at BELTEI (Year 4). I enjoy creating systems that are easy to use and work well, and I'm always trying to improve my skills and learn new technologies.

Dear Sir/Madam,

I am writing to apply for the Web Developer position at your company. I am a web development graduate from Passerelles numériques Cambodia and currently continuing my studies in Software Engineering at BELTEI.

I have hands-on experience building web applications using PHP, Laravel, Vue.js, Inertia.js, and MySQL. During my 4-month internship at IT Solutions, I worked on developing and improving web systems, fixing bugs, and collaborating with a development team in a professional environment.

I also worked at Vehabooking, where I contributed to both frontend and backend development, improved system performance, and implemented new features.

I am a motivated and responsible developer who enjoys learning new technologies and solving problems. I am confident that my skills and experience can contribute to your team.

Thank you for your time and consideration.

Sincerely,

koeuk KOS
